PREFACE

This special Mission Coverage Index (MCI) has been prepared in response to a United States Intelligence Board Action Memorandum (USIB-AM-63/23) dated 24 April 1963, subject: Analysis of Recent KH Photography of the Middle East. It furnishes a listing of items of intelligence interest in the Middle East covered by KEYHOLE Missions [REDACTED]

25X1D

25X1D

Items in the listing are arranged by (1) country, (2) WAC area within a country, and (3) coordinates within a WAC area reading from south to north and from west to east. An explanation of column headings and photo reference data used in presenting the information is contained in the appendix.

For convenience of the user, a subject index to the intelligence items has been included following the listing. Targets in the subject index are listed by (1) subject, (2) country, and (3) alphabetically by place name.

Interpretation of certain frames from the forward camera used on Mission 9053 is somewhat limited by the presence of a plus density streak (dark streak) of unknown origin on the duplicate positive film used.

The user of this MCI is cautioned that the scan of photography was accomplished in a relatively short time and therefore without the aid of precise analytical and mensural techniques commonly employed in detailed photographic analysis. Consequently, although the information presented herein is essentially accurate, additional detailed analysis may somewhat alter portions of the information.

DASHUR SAM TRAINING AREA FOUR NM NW OF DAHSHUR AND 9 NM WEST OF HULWAN. INSTALLATION CONSISTS OF 4 AREAS. FIRST AREA INCLUDES 2 SA-2 SAM SITES COMPLETED AND THE COMPLETED GUIDANCE AREA FOR A PROBABLE THIRD SA-2 SITE. THIS AREA PROBABLY FUNCTIONS AS A SAM TRAINING INSTALLATION, BASED ON THE NUMBER AND VARIETY OF BUILDINGS. SECOND AREA INCLUDES BARRACKS-TYPE AND VARIOUS OTHER BUILDINGS. THIRD AREA IS ROAD SERVED AND CONSISTS OF 8 RECTANGULAR BUILDINGS ARRANGED IN 3 ROWS AND WHICH APPEAR TO BE REVETTED. THIS IS PROBABLY A STORAGE AREA. FOURTH AREA IS A PROBABLE EXPLOSIVES STORAGE AREA. IT IS SERVED BY A ROAD NETWORK WHICH HAS A ROUGHLY RECTANGULAR PATTERN WITH THE CURVED INNER ROADS HAVING OBJECTS, POSSIBLY STORAGE STRUCTURES OR BUNKERS, ADJACENT TO THEM. TWO AREAS ON THE MAIN ACCESS ROAD TO THE FOURTH AREA ARE PROBABLE ADMINISTRATIVE OR SERVICE AREAS PREVIOUSLY REPORTED AS CAIRO PYRAMIDS MILITARY CAMP 1. <div></div>	2948N 03111E	0447	25X1A <div></div>	23
AL QAHIRAH (CAIRO) AIRCRAFT PLANT HELWAN ADJACENT TO NW END OF HELWAN AIRFIELD. PLANT CONSISTS OF AT LEAST 12 BUILDINGS, TWO OF WHICH ARE ASSEMBLY-TYPE BUILDINGS AND ONE ADMINISTRATIVE OR ENGINEERING-TYPE BUILDING. <div></div>	2950N 03119E	0447	25X1A <div></div>	3-A

APPENDIX
EXPLANATION OF COLUMN HEADINGS
AND PHOTO REFERENCES

City, Installation--This column contains the name of the city or town nearest the installation, followed by the name of the installation. If the name of the installation is not known, it is titled according to its function. The city and installation names are followed by a capsule description, where appropriate.

Coordinates--Coordinates are referenced to the SW corner of the minute square. When the subject installation covers a wide area, coordinates are given for the approximate center of the installation.

WAC--This column provides the World Aeronautical Chart number for the area in which the subject installation lies.

Installation Numbers--The Installation Numbers column is divided into two subcolumns. The first subcolumn lists, when known, the BE installation number assigned to the target. The second subcolumn lists the installation number assigned by NPIC. Installation numbers, when used to reference an item, should be prefixed by the appropriate WAC number, since installation numbers are repeated from WAC to WAC. For example, there is an NPIC target numbered 0426-1 and an NPIC target numbered 0427-1. In each instance, the NPIC installation number is 1, but the installations appear on different WACs.

The photo reference indicates the appropriate mission, frame(s) on which the target appears, and conditions which affect interpretation of the target.
